PROFESSIONAL SUMMARY

Motivated Data Analyst with a solid programming foundation and hands-on knowledge of SQL, Power BI, Excel, and Python. Skilled in database management, data structures, and problem-solving, with a strong interest in transforming raw data into clear, actionable insights. Passionate about continuous learning and applying analytical thinking to solve real-world business problems.

EDUCATION

Faculty of Computers & AI (AI & Data Science Section), Beni Suef National University | Expected Graduation: 2028

PROJECTS

- **Data Cleaning Using Python**

Cleaned and prepared raw data using Python and NumPy and Pandas, including handling missing values, removing duplicates, and correcting data types to make the dataset ready for analysis.

Data Cleaning & Data Modeling

- Performed advanced data cleaning and transformation using Power Query, including combining tables through append operations.

Used Power Pivot to build relationships between tables and create a structured data model for analysis.

Data Analysis Using Excel

- Cleaned and analyzed sales data and developed an Excel dashboard presenting key sales KPIs, trends, regional performance, and top salesrepresentatives.

  Used PivotTables and Excel analysis tools to organize data and generate business insights.

Power BI Analysis Project

- Built a Power Breport including an Income Statement and created different measures to support financial analysis and reporting.

TECHNICAL SKILLS

Programming & Databases: C++, Java, Python, Object-Oriented Programming (OOP), Data Structures, Microsoft SQL Server, Database Management System (DBMS)
Data Analysis & BI: Data Analysis, Microsoft Power BI, Microsoft Excel, Problem Solving

SOFT SKILLS

Personal Branding | Communication | Presentation Skills | Attention to Detail | Analytical Thinking | Teamwork

COURSES & CERTIFICATIONS

IBM Data Fundamentals Certificate (2026) | Mahara-Tech Python Basics Certificate (2025)

LANGUAGES

Arabic: Native | English B2
